

## OUR TARGET GROUP

Researchers, seeking

- collaboration partners within the region
- financial support for research projects

Administrators and public authorities, needing

- contact persons within the scientific community
- intermediaries to implement the political agenda

Companies, aiming to

- find suitable partners for R&D collaboration
- increase their innovative ability
- turn ideas into prototypes
- recruit young talents

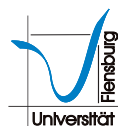

Stakeholders, wishing to

- broaden their network
- support regional knowledge-driven projects

SYDDANMARK SCHLESWIG-HOLSTEIN

## A REGIONAL NETWORK OF ACADEMIC INSTITUTIONS

[www.videnregion.eu](http://www.videnregion.eu)

## WHO WE ARE

Videnregion/Wissensregion is a common initiative between the academic institutions and university hospitals in the region of Syddanmark and Schleswig K.E.R.N. with the aim to strengthen the regional knowledge-based economy.

### Partners include:

Christian-Albrechts-University Kiel  
Flensburg University of Applied Sciences  
Odense University Hospital  
University Medical Center Schleswig-Holstein  
University of Applied Sciences Kiel  
University of Flensburg  
University of Southern Denmark

The Videnregion/Wissensregion Project Office is located at the University of Southern Denmark in Odense, Denmark.

The collaboration is based on a three-year project funded by INTERREG 4A Syddanmark-Schleswig-K.E.R.N in the framework of the European Regional Development Fund.

Part-financed by the EU  
The European Regional  
Development Fund  
Investing in your future

## WHAT WE HAVE TO OFFER

Access to knowledge and the exploitation of scientific results are basic requirements for competitiveness and growth in the region of Southern Denmark and Schleswig-Holstein. In recent years, a number of scientific collaborations and research projects have been initiated between academic institutions in this region. However, there is potential to expand and improve the collaboration activities in order to create a competitive and dynamic knowledge-based society.

With the establishment of the Videnregion / Wissensregion project we aim to make use of these existing competencies, expand and strengthen cross-border collaborations in research and academic education, facilitate new collaborations, and promote the dissemination of research results within the region and beyond to create maximal synergy.

The Videnregion / Wissensregion project office assists researchers in finding collaboration partners, provides an overview of projects and contact persons at the partner institutions, facilitates mobility and exchange between the partners and can give advice on cross-border funding programs.

## GENERAL SUPPORT OF CROSS-BORDER COLLABORATION

- Structured stocktaking of already existing cross-border cooperation
- Establishment of a transnational project database
- Identification of new cooperation fields

## RESEARCH COOPERATION

- Match-making service
- Assist and advice in terms of funding opportunities
- Proactive support of collaboration in chosen research fields:
  - Preventive health care
  - Energy
  - History
  - Regional dynamics
  - Nanotechnology
  - Life science & health
  - Marine and coastal research
  - Didactics
  - Technology transfer

## EDUCATION & MOBILITY

- Further student exchange based on the European Erasmus programme
- Work towards shared Master-moduls and common PhD programmes
- Facilitate staff exchange across borders
